

'Subject Submission Summary' Report

What can this report do for me?

This report provides a list of students in a LearnJCU subject with submission information for each student. For example, the report can generate a list of students displaying all Assignment submissions for a LearnJCU subject during a given academic study period. This report can be used to identify students who are not engaged in their subjects by displaying trends and numbers of submissions compared to the average across all students in that subject. Students below the average may not be sufficiently engaged in the subject and may indicate the need for assistance.
